

CRITICAL REVIEW FORM: SCREENING

Guide		Comments
I	Are the recommendations valid?	
1	Is there randomized controlled trial evidence that the intervention benefits people with asymptomatic disease?	
2	Were the data identified, selected, and combined in an unbiased fashion?	
II	What are the recommendations and will they help you in caring for your patients?	
1	What are the benefits?	
2	What are the harms?	
3	How do these compare in different people and with different screening strategies?	
4	What is the impact of people's values and preferences?	
5	What is the impact of uncertainty?	
6	What is the cost-effectiveness?
