

CRITICAL REVIEW FORM: CLINICAL DECISION ANALYSIS

Citation: Med Decis Making. 2005 Jul-Aug;25(4):387-97.

Perioperative management of patients on oral anticoagulants: a decision analysis. Dunn AS1, Wisnivesky J, Ho W, Moore C, McGinn T, Sacks HS.

Guide		Comments
I	Are the recommendations valid?	
1	Did the recommendations consider all relevant patient groups, management options, and possible outcomes?	
2	Are there systematic reviews of evidence that estimate the relative impact of management options on relevant outcomes?	
3	Is there an appropriate specification of values and preferences associated with each of the outcomes?	
4	Do the authors indicate the strength of their recommendations?	
II	What are the results?	
1	What are the key recommendations?	
III	Will the recommendations help you in caring for your patients?	
1.	Do the recommendations make sense in your practice setting
