

## CRITICAL REVIEW FORM: ECONOMIC ANALYSIS

### Citation:

Ho AMH, Nelson EAS, Walker DG. Rotavirus vaccination for Hong Kong children: an economic evaluation from the Hong Kong Government perspective. Arch Dis Child 2008; 93:52-58.

Guide		Comments
<b>I</b>	<b>Are the results valid?</b>	
<b>1</b>	<b>Did the recommendations consider all relevant patient groups, management options, and possible outcomes?</b>	
1a	Did the investigators adopt a sufficiently broad viewpoint?	
1b	Are the results reported separately for patients whose baseline risk differs?	
<b>2</b>	<b>Is there a systematic review linking options to outcomes for each relevant question?</b>	
2a	Were costs measured accurately?	
2b	Did investigators consider the timing of costs and outcomes?	
<b>II</b>	<b>What were the results?</b>	
1	What were the incremental costs and effects of each strategy?	
2	Do incremental costs and effects differ between subgroups?	
3	How much does allowance for uncertainty change the results?	

Guide		Comments
<b>III</b>	<b>How can I apply the results to my patient care?</b>	
1	Are the treatment benefits worth the harms and the costs?	
2	Could my patients expect similar health outcomes?	
3	Can I expect similar costs in my setting?
